“ACCSES is the voice of reason in the wilderness for Community Rehabilitation Programs, as far as I am concerned. No other organization that I have encountered has the depth of understanding of the core issues that affect us, nor the breadth of resources to tap into. I am astonished at how quickly ACCSES understands, and reacts, to new challenges on the horizon, and how they are able to knit together an extensive network of individuals and agencies into one common, fluid approach that, by the way, gets the job done... Ours is a very nuanced issue, one that must be explained just so, and the staff at ACCSES thread that needle perfectly. Staff are supportive, impressive, diligent, work amazingly hard, and I truly cannot imagine where our industry would be without them.”
